

Compliance. Control. Customer Management.

Leverage our experience.

Maintaining compliance with regulations, controlling the flow of product, and managing patient and customer needs are key challenges to the cannabis dispensary entrepreneur. NEPS' **GreenSun** cannabis labeling solutions can help track the flow of product through your business processes, ensuring that your customers and patients receive the right product for their needs, while maintaining full compliance with industry regulations.

Ensure Government Compliance

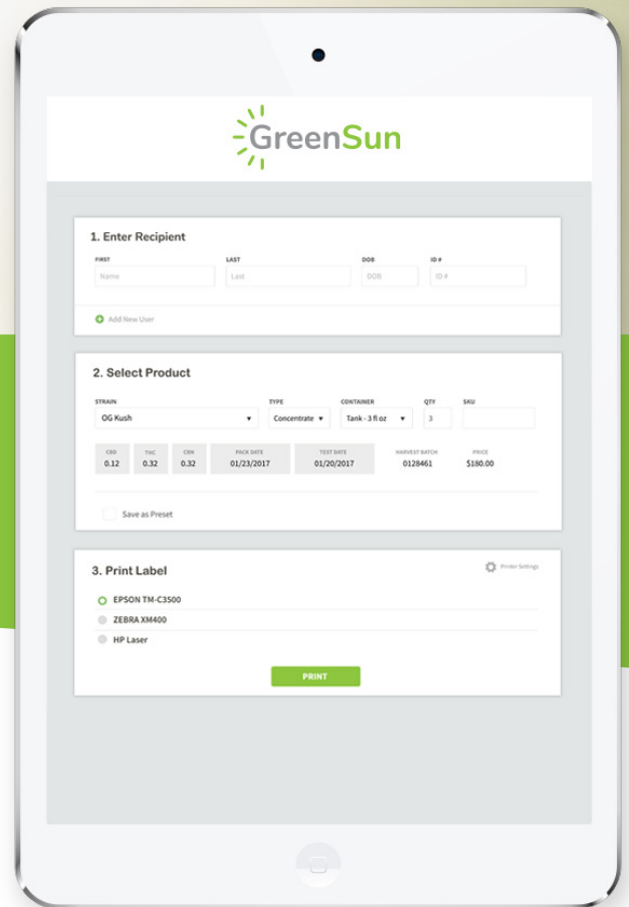

Government reporting can be fully automated or produced on demand. **GreenSun** simplifies and enables compliance for any state-required reporting.

Complete Control

Control the flow of materials, plants and data throughout your operation. Using barcode and RFID technology, **GreenSun** simplifies product tracking through the grow room, the lab and to the sales floor. Streamline your operations and reduce your operational expense.

Customer Management

Develop and print attractive, functional and unique label designs for product, shelf talkers and accessories. Additionally, NEPS can provide Smart ID Cards that make it simple to identify, track, and reward each of your patients and customers.

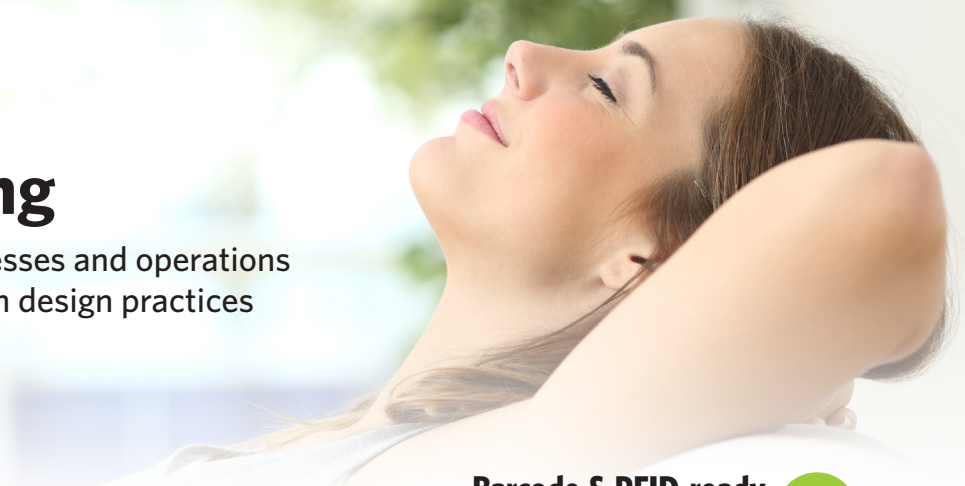

IDEAL FOR

- ✓ **Product Labels**
Printing, branding, information design
- ✓ **Compliance Labels**

- ✓ **Back Office Documents**
MICR checks, purchase orders, invoices, statements, etc.

Cannabis Labeling

We streamline your business processes and operations with our award winning information design practices and extensive technical expertise.

Single Label

Eliminate auxiliary labels by using dynamic variable color, and draw attention to warnings & key information.

Durability

Crisp, vibrant colors that won't fade, run or smudge.

Eliminate Stock Wastage

By using barcodes, RFID technology & other boundary control methods.

Barcode & RFID-ready

Store patient/customer information or link to informational web pages.

Customized Labeling on-demand

Using our LUNA philosophy we can create the most unique, attractive and accessible labels.

Government Compliance

Providing the tools to ensure that your content is current, correct, and complete.

Part of the
HealthConnect
family

NEPS has been providing labeling and healthcare solutions for over 25 years. We can install your solution on premise in your data center, or we have options for hosted services, removing your maintenance and IT burden.
